IMPORTANT

A mere claim or contention by an organization that it is exempt from income tax under section 101 of the Internal Revenue Code and the corresponding provisions of prior revenue acts will not relieve the organization from filing income tax returns and paying the tax. Unless the Commissioner has determined that an organization is exempt, it must prepare and file a complete income tax return for each taxable year of its existence. Accordingly, every organization that claims to be exempt should furnish the information and data specified herein, together with any other facts deemed material to the question, with the least possible delay, in order that the Commissioner can determine whether or not it is exempt. As soon as practicable after the information and data are received, the organization will be advised of the Commissioner's determination, and, if it is held to be exempt, no further income tax returns will be required.
